In the Watch List (HK Stock), you may create multiple portfolios to monitor a number of stocks, warrants, indexes, or futures in one window at the same time. Each portfolio can save up to 500 securities. You may also select the fields to be displayed, such as bid, ask, nominal, change, etc. In addition to the real-time quote price information, user can enter the average purchase price and holding shares for real-time calculation of the profit and loss of individual securities as well as the entire portfolio. There are 4 different display formats which are List, Quote, Chart and Summary.

(incl. HK-Share & A-Share)

### 2.12.2 Watch List (A-Share)

In the Watch List (A-Share), you may also create multiple portfolios to closely monitor both Shanghai and Shenzhen securities information in one window at the same time. There are 4 different display formats which are List, Quote, Chart and Summary. The function and operation is the same as Watch List (HK Stock), kindly refer to the introduction as above.

\* Watch List (A-Share) is an optional value-added package. User needs to subscribe separately for A-Share functions.
