A-Shares Quote provides all Shanghai (SH)/Shenzhen (SZ) A-Shares real-time transaction information, such as Bid/Ask Price, Turnover and Transaction Record; together with various analytical data, like Up/Down Limit, Volume Ratio, %Order, %Change, Free Float Market Capitalization, etc. In addition, there are number of shortcut keys in A-Shares Quote window for accessing its subordinate windows such as Transaction Summary, Company Information and Chart.

Event Reminder is a new function for the system, which shows special event of that A-Share in red color. Reminder includes Ex-date, New Listing, Particular Transfer, Risk Alert, Share Reform Incomplete, Delisting or AH. User may click on the reminder button 10 to find types of A-Shares, and risk alert explanation.

Viewing Last Transaction Record

			Price	Vol	Vol	Price			
			16.620	1.9M	342K	16.630			
			16.610	938K	565K	⊾16.640	Price	Vol	Broker Qty

			10.570	400	180N	10.080			

With restriction from SH/SZ Stock Exchanges, user may view the latest 10 and 5 bid/ask orders with queuing price and number of shares for SH stocks and SZ stocks respectively. You may also find the number of broker by mouse clicking one of the order prices or number of shares.

A-Shares Limit Alarm Setup

Quick Limit Alarm Setup									
Code	SH600000								
Name	PUDONG DEV BA								
A-Bid									
Ask									
Change									
%Change									
Remark									
✓ On/Off	Apply Cancel								

User may set the quick limit alarm in A-Shares quote directly. You may click the color box above the Bid/Ask prices, and then a "Quick Limit Alarm Setup" window will pop up. You may enter the desired Bid/Ask price, Change or %Change of the selected A-Share. For the "On/Off" check box at the lower left corner of the window, it helps user to enable or disable the price alert of the selected A-Share quickly. Finally, click "Apply" button to set up the limit alarm.

To cancel or modify alert setting, you may click "Tools/Setup" on the menu bar, find "Setup" and choose "Limit Alarm Setup". A "Limit Alarm Setup" window will pop up for you to setup the limit alarm.

Using Display Options (A-Shares Information)

User may click "Analytical Data" at the upper right corner of quotation window, and choose "Top 5 Trans" from the combo box; or press "Enter" key on the keyboard directly. The "Analytical Data" panel at the bottom of quotation window will then change to display top 5 transacted prices.

Transaction Summary helps user to find out today top 20 transacted prices and transaction records. To grasp the real time movement of the selected A-Share, VWAP (weighted average price) and the initiative buy/sell ratio are also provided.

Top 20 Transacted Price – displays the most active 20 trading price of today's transaction in chart summary, the latest price will be highlighted in orange color. Mini distribution chart is a new feature for checking market trend at a glance.

Whole Day Transaction – provides detailed transaction records of the selected A-Share, including the filled time, number of shares, price and order type. A block trade indicator will be marked as green dot in front of the transaction record which means the traded volume is equal to or over RMB 1 million.
