	Market Trends Research Report Forex/Metals	
	Property Business	[ET Net News Agency, 10 November 2016] The US dollar rose broadly and hit its highest in nearly four months against the Japanese yen on Wednesday, as US Treasury debt yields touched multi month highs following Republican candidate Donald Trump's victory in the presidential election. The US dollar reversed earlier selling against the safe-haven yen to touch a high of 105.87 yen, its highest since 27 July. It was last up 0.5% at 105.65
	- Commentary/Tips	yen. The US dollar also rallied against the Swiss franc, touching its highest since
	Rumours KEx News	1 November. It was last up 0.7% at 0.9841 franc. The Euro fell to US\$1.092, its lowest against the greenback since 28 October.
	🛧 Bookmarks	The Mexican peso hit its lowest level in history as the currency is seen the most vulnerable to Trump's protectionist policies. The greenback tumbled 8% against the

■ 熱炒	[ET Net News Agency, 9 November 2016] Jefferies Research cut its target			
	price for PAX Global Technology (00327) to HK\$7.3 from HK\$9.5, and maintained its "buy" rating. The research house revised downward its earnings forecasts for PAX, post			
	the recent announcement of the 3Q sales figures and subsequent guidance			
	revision. That said, Jefferies believes that the market is focusing too much on the lower margin China business rather than on the higher margin	ו		
	overseas business (which is still growing).			
	It lowered its earnings forecasts to reflect the uncertainty of merchant			
	acquirers' orders due to China's policy changes and management's update guidance. Jefferies revised its FY2016-18 earnings forecasts by -3.2%, -11.9% and -12.9% respectively. (KL)
